

### ***if you're buying, you can...***

- Visualize your new home and how you will rearrange it
- Decide which of your furniture to bring, and which to buy
- Establish a plan to speed up work for your movers
- Visualize improvements

### ***if you're selling, you can...***

- Convince a potential buyer the place is fit for them
- Show potential improvements that are possible
- Show how to use the house for different lifestyles

### ***if you're remodelling, you can...***

- Visualize how wall colors, or floor finish will look
- Understand how reorganization would impact the interior
- Choose new furniture, or a different style

Even if you are not relocating, there are many ways a 3D Modelling Tool can make your job easier:

- Transform a den into a bedroom
- Add a new bathroom
- Rearrange a garage to accommodate a new car
- Install solar panels
- Plant a new garden...

Whatever your needs are, we can develop a customized 3D Modelling Tool for you.
